WHAT IS THE NEW WORLD ORDER?

Many people are waking up to the agendas going on in the world today which work in the background, above the level of national governments. Agendas such as globalisation, world trade agreements e.g. the 'Transatlantic Free Trade Area', the EU and the UN seem to go on over and above national politics, having a big impact on the lives of everyday people without giving us a say.

The growth of the EU is an example. Edward Heath famously told the nation there would be "No essential loss of sovereignty" regarding the referendum to join the Common Market, supposed to be a trade area. Forty years later the EU now controls Britain's borders, fishing rights, makes 50% of British law and EU law has primacy over British law after the landmark case (Van Gend en Loos Case 26/62), i.e. where UK law contradicts EU law, EU law is enforced.

Now there is a drive for a Federal Europe, i.e. a European super-state, one country called Europe. This has always been the plan, as evidenced by the phrase "ever closer union" in the 1957 Treaty of Rome preamble.

The billionaire investor James Goldsmith wrote in *The Trap*: **"A single currency would mean that the principal economic strategy of each European nation would also need to be determined centrally. It would be impossible to have a single**

currency while at the same time maintaining different economic programmes in each of twelve nations. The true purpose of proposing a single currency is to force through the creation of a unitary European state while pretending to promote a purely economic idea."

The goal is 'ever closer union', the chaos in Greece, foreseen twenty years ago by Goldsmith is merely collateral damage.

Little 'ACORNS'

We are **'Acorns'** a mother and toddlers group at the

Recreation Centre
 Orchard Lane
 off Sandbrook Rd, Woodvale.

We meet every Thursday morning from 10 till 12. during school term times

We have playtime, crafts and singing with juice and snacks for the little ones.

Time for a bit of a run round then we will be clearing up the debris!

We invite mums, dads, grandmas and granddads, and all to come along with their little

.....**Acorns**

We'll be sure to give you a nice cup of tea or coffee and cake!

This coming world government will have power over every nation,

Europe: Many Tongues One Voice

WHAT IS THE NEW WORLD ORDER?

(Continued from page 1)

There are similar moves underway in Asia and Africa to create regional blocs there. The truth is that these regional blocs are stepping stones to the true goal of One World Government, or a "New World Order" as George H.W. Bush, his son George W Bush, Bill Clinton, Gordon Brown, Henry Kissinger and many others have called it. These are politicians from both the 'left' and the 'right' and the UK and the US (and around the world) because these plans are bigger than countries and bigger than politics. These are not new plans and are not confined to politics, they extend into all areas of society, education, banking and even spirituality.

Economic / political:

"Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as 'internationalists' and of conspiring with others around the world to build a **more integrated global political and economic structure— one world, if you will.** If that's the charge, I stand guilty, and I am proud of it." David Rockefeller, Memoirs (International banker)

Education:

"The moral for Unesco is clear. The task laid upon it of promoting peace and security can never be wholly realised through the means assigned to it—education, science and culture. **It must envisage some form of world political unity...** Specifically, in its educational programme it can

stress the ultimate need for world political unity and familiarise all peoples with the implications of **the transfer of full sovereignty from separate nations to a world organisation.**" - Julian Huxley, UNESCO Its Purpose and Philosophy

Spirituality:

"We must move as quickly as possible to **a one-world government; a one-world religion; under a one-world leader.**"

Robert Muller (UN Assistant Secretary-General) Dwight L.Kinman, The World's Last Dictator

Were you aware that the UN has spiritual aims as well as political, economic and educational? This is exactly what the bible says will happen in the last days. How could John, a simple Jewish fisherman possibly have known this 2,000 years ago?

This coming world government will have power over every nation, it will have a world religion that will be compulsory on pain of death, and an economic system that will require a mark to be able to buy or sell. Such a thing has been practically and technologically impossible for all of world history, but who doubts it would be possible today? Such a system would lead to total state control, no personal freedom, and worse, the bible says taking such a mark would mean your name would not be written in 'The Book of Life'.

What can we do about these things?

GH

What the bible says about this coming world government:

Political authority:

"And authority was given him over every tribe, tongue, and nation. All who dwell on the earth will worship him, whose names have not been written in the Book of Life of the Lamb slain from the foundation of the world."

Revelation 13:7-8

Spiritual authority:

"He was granted power to give breath to the image of the beast, that the image of the beast should both speak and cause as many as would not worship the image of the beast to be killed." –

Revelation 13:15

Economic authority:

"He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, and that no one may buy or sell except one who has the mark or the name of the beast, or the number of his name " –

Revelation 13:16-17

WHICH LEADER SHOULD WE FOLLOW?

Our Pastor Writes

This is not a political message. Hopefully people of any age will read the words, but it may be more readily understood by people who have some experience of what it was like to live in this country some decades go, or who have some knowledge of the relatively recent history of the United Kingdom.

I suggest that the country of today, with some exceptions, is barely recognisable from the country of the past. Whilst there are clearly some changes for the better, such as car ownership (apart from congestion), cleaner air and beaches and access to entertainment and some freedoms of choice, the spread of knowledge and a wider choice of food menus, other aspects may not be seen as clearly beneficial.

State control over most activities seems to grow year by year, starting with maternity policies, children's education, university education leading to employment law, dietary advice and medical treatments and the compensation culture. Whilst few things are totally positive or totally negative, there some alarming issues that can be highlighted.

There are significant behavioural problems in primary and secondary schools, difficulties in funding of university education and placing graduates in jobs. We apparently have fallen far behind other countries in standards of excellence in these areas. I seem to hear of more and younger people getting seriously sick. (No statistics provided). One week we are told we shouldn't eat butter, but the next week it's OK. Does anyone really know?

Heterosexual marriage is not apparently encouraged by the State and "free sex" is not now an issue that concerns most people, despite the fact that stable relationships between adults are becoming more and more infrequent. One- family parents increase and more young men seem to be socially isolated and often without work.

The compensation culture is apparently the reason why health and safety issues are often given as the reason as to why some aspects of public life seem to be out of control. Common sense has gone in some respects. No examples need be given!

Why has all this, and more, happened within a few short decades? Is this the fault of Government? Whilst this may be an issue I do not believe it to be the underlying factor. Government itself may be under pressure to conform to "global norms".

The main reason perhaps is that the churches by and large have failed in their duty

The main reason perhaps is that the churches by and large have failed in their duty to God, themselves and the nation. Doctrine, once highly valued, is seen as unnecessary, leaving worshippers to seek "experiences" rather than truth and holiness.

We have clergy scandals and an apparent obsession with gender items and other issues, including dabbling in politics, rather than setting behavioural standards for the nation. Consequently worshippers have continued to dwindle, leaving many to seek Christian fellowship in smaller groups including house groups, in which there is no oversight and we have no idea how many exist.

There is no Christian voice for the nation and we now have a multiplicity of religions so that "no one" outside of any formal religious or ethical moral structure knows who to believe or where to turn. Because of this uncertainty we are or will be faced with blending all these options into a unity which will aim to gain universal acceptability but is likely to fall short of Biblical Standards .

The previous sure certainty of the Christian faith and the behaviours stemming from it, have disappeared. Whilst this of course was never perfect it did blend the nation together. However the strength of the whole is ultimately dependant on the individual faith and integrity of worshippers. A society can run for "so long" on Christian standards inherited from previous generations, but unless individuals truly believe, it will collapse. Ultimately there is no Christianity without Christ. God looks on the heart!

Once any society introduces unbiblical practices into formal legislation, Divine wrath is certain to follow at some stage.

Matters have now gone so far that it seems hard to see how they can be reversed. Individuals can be rescued from the worst of this through yielding to the personal standards taught by The Lord Jesus Christ.

For many decades we have increasingly followed the leadership of those who, in general, were not committed to the cause of Christ. Who will follow Jesus? The scripture says, "Repent and believe".

Where do you stand?

In chess, the king is the most important piece. The object of the game is to trap the opponent's king so that its escape is not possible

“Ultimately there is no Christianity without Christ. God looks on the heart!”

Following those who were not committed to Christ

Our Ambassadors to visit Burkina Faso

Two of our members will be flying out to Burkina Faso in November. Burkina Faso is a landlocked country in West Africa around 274,200 square kilometres in size and with some unusual place names like Ouagadougou and Koubri. Once a French Colony it is a very poor country affected not only by droughts, but by the political nature of west Africa.

The visit to meet up with Pastor Salomon will not be a holiday, although the hospitality will be very warm, but is at the local church's invitation to join in the opening of their new church building at Koubri and to help with the teaching and evangelism that they will be having during this time.

We have been privileged to be associated and able to help Pastor Salomon's ministry over a number of years and indeed two of our members visited Pastor Salomon in 2010, whilst Pastor Salomon has visited us several times. He is a re-

markable man who works tirelessly for the Lord, teaching of the love of Jesus and establishing new churches.

We have been able to contribute to the building of this new church and it is amazing how far a small amount of money will go as all the work is done by themselves and overheads are minimal. The Christians there also get involved in education and medical care and guide the villagers in better food cultivation thus helping in the full needs of the person.

The visit will be a cultural shock. Accommodation will be very basic as is everything over there from mud roads to mud houses. No wonder they will have to have so many 'jabs' before they go, but I'm sure they are looking forward in keen anticipation to meeting their hosts and the people of Burkina Faso and bringing home first hand experience of the people we have been helping for so many years.

Why I wrote about a New World Order - A Personal Testimony

Let me tell you how I came to learn these things and what we must do in response. I began to learn about this agenda around 2009. I was horrified and shocked how this could be happening right in front of people's faces. I decided to learn everything I could about this agenda to see how to stop it. I soon realised that the average person is totally disinterested in such matters and many actively reject talk on this subject. I regained a love of reading I had lost during high school and began to read every night on this 'New World Order'. Years later I acquired a bible and began to read that. Being greatly impressed with the words of Jesus I began to read more deeply and more around prophecy. To my utter amazement I found the bible predict-

ed a one-world government, one world religion and one world currency 2,000 years ago when such things would be practically and technologically impossible. I realized the bible explained our world today perfectly. This was a huge surprise to me, I had been raised Catholic but rejected the bible in my teens as being written by man to control man. Yet I found in this book God's plan for mankind, the complete opposite of 'The Devil's plan' of world government, depopulation and nature above man that I hated. The bible showed me the one world government is coming, and no political movement, return to the gold standard or agrarian movement will save us.

In the days of Noah waterproofing your house would not work, the flood was too deep, you would be washed away. But God provided an escape, the ark and everyone inside was saved. In these days

God has provided another escape, his Son Jesus Christ, everyone who trusts in Him, calls on His name for salvation in repentance will be saved. Everyone else will be washed away.

When I put my trust in Jesus Christ He gave me eyes to see. The world suddenly made perfect sense and I was no longer afraid. The Lord will do the same for you if you believe on Him. He is not a would-be revolutionary who messed up and was killed 2,000 years ago, He is The Lord of Glory, the Creator and Sustainer of the universe who created you and I to live with Him forever and died for our sins to make it possible. He gave us the bible through the prophets that we may know Him and His plan for the world, and also the plans that evil men would make so we can avoid them and choose the right path.
